eLearning Chinese Studio

At eLearning Chinese Studio, we see **each student as a unique individual**. Our class activities are designed to guide students in self-discovery, while **enhancing their social skills and self-confidence**.

In each **small-sized class**, students enthusiastically **discover** their own talents while **appreciating** the genius in others.

For our students to **apply Chinese naturally**, we communicate with them as though Chinese is their native language. Instead of teaching by bits and pieces, we incorporate vocabularies into our conversations, as we would in our daily lives.

Tadpole Pre-K (Ages 2.5–5)

Each class has group activities and individual work time. Activities include story-time, creative movement, arts and crafts, nursery rhymes, and songs.

The focus is on familiarizing students with the Chinese language. (* Students are required to be potty trained.)

Tadpole Kinder (Ages 4.5–6)

Based on our Pre-K program, Tadpole Kinder expands into areas such as math concepts, science observations, community awareness, with the intention to broaden students' world view.

Through out the course, students participate in interactive reading activities and hands-on projects by utilizing Chinese with the culture practices in a natural setting. (Requires 1 year of Tadpole Pre-K for age 5 or younger.)

Polliwog Enrichment (Ages 5–7)

In the Polliwog Enrichment program, other than strengthening students' daily conversation skills, we will also be introducing basic Chinese characters.

Class reading and hands-on activities are designed with themes involving numbers, families, body parts, colors and shapes, math, natural science, community, holidays and more.
